

# Sprint Planning Board [20-01-26]

For our first sprint we will have users and accounts, where users can log tasks and accumulate points which will show on a leaderboard, there will be moderator accounts which can approve/disprove submissions for moderated tasks.

Priority of task determined by colour of User Story. **Red = High**, **Amber = Medium**, **Green = Low**

User Stories	Acceptance Criteria	To Do	Testing	Done
<p>As a user, I want to sign up/sign in easily with 'forget your password' option.</p> <p><b>Points : 5</b> <b>Priority : 1</b></p>	<ul style="list-style-type: none"> <li>Saves user information <ul style="list-style-type: none"> <li>Passwords</li> <li>Usernames</li> <li>Emails</li> <li>Phone Number</li> </ul> </li> <li>Allows user log in with their (username and email) AND password</li> <li>If user forgets password a recovery email is sent so user can log into their email and reset password</li> <li>User Login UI</li> </ul>	<p>Basic Website Database</p> <p>Hash function</p> <p>Input validation</p> <p>Checking against database</p> <p>Creating UI</p> <p><i>Forgot password (High risk, hard to implement)</i></p>	<p>Sign up/sign in button works. Take user to a different page.</p> <p>"Forgot password" takes user to a different page.</p> <p>User can create account with their email and password. Confirm password, and check if both match.</p> <p>Check hash function works as intended.</p>	Yes
<p>As a user, I want to see the challenges I can do and the number of points for each.</p> <p><b>Points : 3</b> <b>Priority : 1</b></p>	<ul style="list-style-type: none"> <li>Challenge board</li> <li>Point worth</li> <li>Order challenges</li> </ul>	<p>Creating UI</p> <p>Update challenges dashboard</p> <p>List of challenges</p>	<p>Challenges are displayed with each number of points on the side.</p> <p>User is able to choose a challenge, add it to their challenges.</p> <p>The user is able to order the challenges by how many points.</p>	Yes

<p>As a user, I want to easily see the leaderboard and my ranking.</p> <p><b>Points : 3</b> <b>Priority : 1</b></p>	<ul style="list-style-type: none"> <li>• Leaderboard</li> <li>• Rank system by point worth</li> <li>• Awarding points</li> </ul>	<p>Leaderboard UI SQL query for top players Filter system for top 10 players (look at 10 highest scores in DB) Create second table for top 10 players, updated each day</p>	<p>Users are able to access the leaderboard. Users are able to search for their name/ID/number to find themselves on the leaderboard. There is a filter button that a user can press. Filter by points DESC and ASCEND.</p>	<p>Yes (Improve in Sprint 2)</p>
<p>As a moderator, I want a specific and clear space so that I can easily approve/disprove evidence.</p> <p><b>Points : 13</b> <b>Priority : 2</b></p>	<ul style="list-style-type: none"> <li>• Moderator area</li> <li>• See submissions</li> <li>• Approve/Disprove Submissions</li> <li>• Access evidence on submission</li> </ul>	<p>Checking UI Sending image (image ID) Storing images Pull images to admin approve / disapprove Give user points</p>	<p>Moderators can access a private page (no users). Button to approve the evidence. Button to reject the evidence, with a box to put reason.</p>	<p>Yes</p>
<p>As a user, I want the submission process to be clear and know the number of points I will get from the challenge done.</p> <p><b>Points : 5</b> <b>Priority : 2</b></p>	<ul style="list-style-type: none"> <li>• Tasks worth points</li> <li>• Submission button</li> </ul>	<p>Points displayed for tasks Point calculations displayed for travel tracker</p>	<p>Users can access a description or page of the challenge. There is a submission button and the user is able to click it. Can only click submit if they have done the submission requirements.</p>	<p>Yes</p>

<p>As a moderator, I want to have a specific tab to easily be able to create/end challenges and view analytics of each challenge.</p> <p><b>Points : 8</b> <b>Priority : 2</b></p>	<ul style="list-style-type: none"> <li>• Analytics dashboard on challenges</li> <li>• Moderator create challenges</li> <li>• Moderator end challenges</li> </ul>	User role based webpages  Challenge data submission form	Moderators can access a specific page.  There are text boxes to put the information of the challenges.  Access live challenges and have a delete button.	Yes (Analytics pushed into Sprint 2)
<p>As a user, I want to easily be able join/create groups/societies with a code for only members of a specific society to be able to join.</p> <p><b>Points : 8</b> <b>Priority: 3</b></p>	<ul style="list-style-type: none"> <li>• Group system</li> <li>• Unique code for group</li> <li>• Remove people from group</li> <li>• Invite people to group by email / username</li> </ul>	Sprint 2	Sprint 2	Sprint 2
<p>As a user, I want to know what badges I can receive and easily see the badges of others.</p> <p><b>Points : 3</b> <b>Priority : 3</b></p>	<ul style="list-style-type: none"> <li>• List of badges, criteria to achieve</li> <li>• Badges on user profile</li> <li>• Claim badges when hit criteria</li> </ul>	Sprint 2	Sprint 2	Sprint 2

*The following pages contain our scrum boards from each week, new tasks that were not originally planned are written in green, and tasks we have determined were unnecessary or should be pushed to sprint 2 are written in red.*

*Once an item was marked as 'Done' we removed it from the scrum board the following week to keep it cleaner and easier to read.*

## Scrum Board [21-01-26]

User Story	To Do	In Progress	Done
As a user, I want to sign up/sign in easily with the 'forget your password' option.	Basic Website Front [BEN & MARKO] User Table Database [JAI & ARMIN] Hash function [BEN & MARKO] Input validation [BEN & MARKO] Checking against database [BEN & MARKO] UI Structure/Implement [BEN & MARKO] Login UI HTML/CSS [ZARREEN & PHOEBE]		
As a user, I want to see the challenges I can do and the number of points for each.	Tasks UI HTML/CSS [ZARREEN & PHOEBE] Update challenges dashboard [BEN & MARKO] list of challenges [PHOEBE]		
As a user, I want to easily see the leaderboard and my ranking.	Leaderboard UI HTML/CSS [ZARREEN & PHOEBE]		
Other Tasks [Non-User Story]	Web UI Layouts [ZARREEN/MADI] Web UI Flow Transition Diagram [MADI] Report Docs [ARMIN] End-to-End Testing [Davi]
